## **COMMENTS OF THE WALT DISNEY COMPANY**

The Walt Disney Company hereby submits these comments in the above-captioned proceedings. The Walt Disney Company wholly owns the ABC Television Network, which provides news, sports, and news programming to its affiliates and also owns ten television stations in markets ranging in size from New York and Los Angeles to Flint, Michigan and Toledo, Ohio.<sup>1</sup>

As a general matter, The Walt Disney Company ("Disney/ABC") believes that the public interest would be served by broad and principled deregulation of broadcast

\_

<sup>&</sup>lt;sup>1</sup> ABC's owned stations are: WABC (New York, NY), KABC (Los Angeles, CA), KGO (San Francisco, CA), WLS (Chicago, IL), WPVI (Philadelphia, PA), KTRK (Houston, TX), KFSN (Fresno, CA), WTVD (Durham, NC), WJRT (Flint, MI), and WTVG (Toledo, OH).

ownership. In the interest of administrative efficiency, these comments do not repeat the extensive factual showings and arguments of those more immediately constrained by the existing rules. Instead, as described below, Disney/ABC has limited this submission to responses to the Commission's questions regarding local news and preemption of network programming.

### **INTRODUCTION**

Disney/ABC is filing these comments to respond directly to a few network-related questions asked by the Commission in the *Notice of Proposed Rulemaking* in the above-captioned proceeding ("*Notice*").<sup>2</sup> Specifically, this filing provides Disney/ABC's factual response to two specific areas of questioning in the *Notice*: local news and preemption. As for local news, in the *Notice*, the Commission specifically directs that the Commission "would be particularly interested in any clear correlation between the status of stations as affiliates or network-owned and the quantity of local news and public affairs produced by those stations." The Commission requested commenters to "submit evidence addressing the relative output of affiliates and networks in this regard."

The *Notice* also seeks comment on preemption and, specifically, on "the extent to which affiliates and/or network-owned stations could be expected to preempt network programming when it is not in their economic interest to do so." The *Notice* asks generally about the economic incentives involved in preemption and notes that "[s]ince the networks initially bear these [programming-related] costs, network-owned and

operated stations may have a stronger economic incentive than affiliates, all else being equal, to distribute network programming rather than replacing it on a station-by-station basis in response to community interests."

## UPON PURCHASE OF A TELEVISION STATION, DISNEY/ABC HAS INCREASED THE AMOUNT OF LOCAL NEWS ON THE NEWLY-ACQUIRED STATION

In response to the *Notice*, Disney/ABC has reviewed its most recent television station purchases to demonstrate that Disney/ABC – after purchasing a television station – has increased the amount of local news on that station.

ABC purchased two television stations in October 1994, WJRT in Flint, Michigan and WTVG in Toledo, Ohio. Prior to purchase by ABC, WJRT aired 25 half-hours of local news per week.<sup>7</sup> Post purchase, ABC immediately increased the number of half hours of local news on WJRT to 35 and – by May 1999 – WJRT was airing 54 half-hours of local news per week.<sup>8</sup> WJRT still is airing 54 half hours of local news per week.

As for WTVG, prior to purchase by ABC, WTVG was airing 34 half hours of local news per week. <sup>9</sup> By May 1997, ABC had increased the number of half hours of local news to 44 and – by May 2000 – WTVG was airing 53 half hours of local news. <sup>10</sup> WTVG still is airing 53 half hours of local news per week. <sup>11</sup>

As can be seen by this description of ABC's most recent television station purchases, ABC takes its commitment to local news very seriously and has increased the amount of local news on the stations that it has purchased. Disney/ABC's research also

supports – and is consistent with – the conclusions contained in a recent filing by Fox, NBC/Telemundo, and Viacom entitled "Response of Fox, NBC/Telemundo, and Viacom to Early Submission of NAB and NASA." That filing attaches a study prepared by Economists Incorporated that demonstrates that network owned stations "carry significantly more minutes of local news and public affairs programming than affiliates and earn a similar number of awards for news quality."

## **PREEMPTION**

Disney/ABC previously has provided data to the Commission demonstrating the extent and nature of the preemptions by ABC affiliates of ABC network programming and that data is analyzed below. In addition, Disney/ABC also has provided additional comprehensive preemption data for 2001 in this proceeding – together with Viacom/CBS, NBC/Telemundo, and Fox – which is analyzed as part of a study conducted by Economists Incorporated.

Most strikingly, the data previously filed by Disney/ABC demonstrates that many of Disney/ABC's affiliates do not clear Disney/ABC's Nightline or Disney/ABC's award-winning children's' educational and informational programming during their regular time slots. For example, Disney/ABC previously filed an *ex parte* demonstrating that – as of June 2002 – affiliates covering 11% of the country refused to clear Nightline at its regular time (instead delaying it and reducing its audience), and that *all but one* of those affiliates were airing syndicated programming during Nightline's regular time

<sup>13</sup> *Id.* at p. 2.

<sup>&</sup>lt;sup>12</sup> Filed December 19, 2002 in MB Docket No. 02-277 and MM Dockets 01-235, 01-317, and 00-244.

slot. 4 For the purpose of this filing, Disney/ABC revised the list of Nightline-delay stations, and that chart demonstrates that stations covering 10% of the country still do not clear Nightline in its regular time. 15 For example, in Kansas City, KMBC, owned by Hearst-Argyle, delays Nightline for 90 minutes while it broadcasts Seinfeld, Will & Grace, and Entertainment Tonight. 16

In addition, Disney/ABC previously filed with the Commission a comprehensive analysis as part of its comments in the NASA proceeding that demonstrated that, as of July 2001, affiliates covering almost 9% of the country did not clear Disney/ABC's children's programming during the Disney/ABC Saturday morning time block. 17 The affiliates that were not clearing Disney/ABC's children's programming were broadcasting syndicated or paid programming in its place. 18 For example, in Washington, DC, WJLA still interrupts Disney/ABC's children's programming so it can run part of the block early in the morning (when fewer kids are in the audience) and part of the block later in the morning (again, when fewer kids are in the audience) in order to run paid programming in the preferred time slot (when the most kids are in the audience).

On two previous occasions, Disney/ABC has filed data with the Commission relating to the number and type of its "one time only" preemptions, i.e., preemptions in addition to certain affiliates' regular non-clearance of certain Disney/ABC shows like the Nightline and children's programming examples discussed above. First, as to the

<sup>&</sup>lt;sup>17</sup> See Exhibit F, Chart entitled "ABC Nonclearances and Delays," earlier attached to Comments of The Walt Disney Company, DA 01-1264 (filed July 23, 2001). As noted, this exhibit was prepared during the summer of 2001, as part of the NASA proceeding, and thus does not reflect changes since that time. <sup>18</sup> *Id.* 

adequacy of the number of preemptions negotiated between the network and affiliates, an analysis filed in June 2002 with the FCC shows the total number of preemptions available to affiliates through their negotiated "baskets" of preemptions. <sup>19</sup> This analysis demonstrates that during 2001, affiliates used only 56% of the permissible preemptions available to them (affiliates used a total of 6,241 half-hours, out of a total of 11,175 available half-hours). <sup>20</sup> Moreover, the chart shows that 150 affiliates, out of the 189 affiliates on the list, did not exceed their baskets. <sup>21</sup>

As for whether the negotiated preemption baskets are *sufficient* for the affiliates' "right-to-reject" needs, the data previously provided by Disney/ABC discloses the type of programming for which affiliates have continued to preempt in excess of their negotiated baskets (e.g., local sports, local weather, local specials, telethons, paid religious programming, local election coverage, and local pageants).<sup>22</sup> Even of those 38 affiliates who did not negotiate for a preemption basket, 28 of those affiliates still preempted Disney/ABC programming for a total of 898 half-hours.<sup>23</sup>

In addition, Disney/ABC earlier filed two illustrative excerpts of preemption, one for the first quarter of 2002 and one from December 2001-January 2002.<sup>24</sup> For December 2001, affiliates preempted Disney/ABC prime-time programming for a total of 510 half-

<sup>&</sup>lt;sup>19</sup> See Exhibit G, Chart entitled "2000-01/2001 Preemptions," earlier attached to Disney/ABC *ex parte* filed on June 12, 2002 in DA 01-1264. For affiliates that negotiated baskets running during the calendar year, this chart displays preemption during the 2001 calendar year; similarly, for affiliates that negotiated baskets running during the television season (fall to fall), this chart displays preemption during the television year.

hours.<sup>25</sup> Although 173 of those half-hours were for "local specials," only 79 of those 173 half-hours of local specials were actually locally produced.<sup>26</sup> The remaining 94 half-hours of prime-time preemptions consisted of movies, syndicated programming, or paid religious programming and infomercials.<sup>27</sup> Affiliates also preempted Disney/ABC weekend programming for sports, for a total of 88 half-hours in December 2001, climbing to a total of 452 half-hours in January 2002 (when the college basketball season starts in earnest).<sup>28</sup> During the entire first quarter for 2002, affiliates preempted for 2623 half-hours, 1730 of which was for local sports. During the first quarter of 2002, affiliates preempted Disney/ABC programming more for syndicated programming (201 half hours) than for local specials (188 half-hours).<sup>29</sup>

In addition to Disney/ABC's previous filings, attached to this filing is an analysis showing that, during 2001, only 291 of the 3694 half hours of prime-time preemptions were for news, political, or public affairs programming.<sup>30</sup> The remainder of the prime-time preemptions were for telethons (574 half hours), entertainment (both syndicated and local entertainment), paid programming, paid religious specials, and sports.<sup>31</sup> The total sports prime-time preemption for 2001 amounted to 1561 half hours, which is approximately 42% of the total prime-time preemptions for the year (and this calculation does not even include weekend sports preemptions, which are significant).<sup>32</sup>

## **CONCLUSION**

Disney/ABC generally supports broad and principled deregulation of the FCC's broadcast ownership rules. The information and data presented in this filing is intended to be helpful to the Commission's inquiry on two particular subjects, local news and preemption.

Respectfully submitted,

### **DECLARATION OF PATRICIA LIGUORI**

I am Vice President of Research for ABC-Owned Television Stations. In that capacity, I have prepared Exhibit B to support the comments submitted by The Walt Disney Company ("Disney/ABC") in response to the Commission's network-related questions on local news and preemption in MB Docket 02-277. Exhibit B, entitled "Total Weekly Half-Hours of Local News Before and After Station Purchase by ABC," shows the amount of local news aired on Disney/ABC-owned commercial television stations WJRT, Flint, Michigan and WTVG, Toledo, Ohio prior to and following such stations' purchase by Disney/ABC. This exhibit was compiled using Wrap Sweeps Report software to aggregate Nielsen Media Research ("Nielsen") data for the May 1994-2002 sweeps periods.

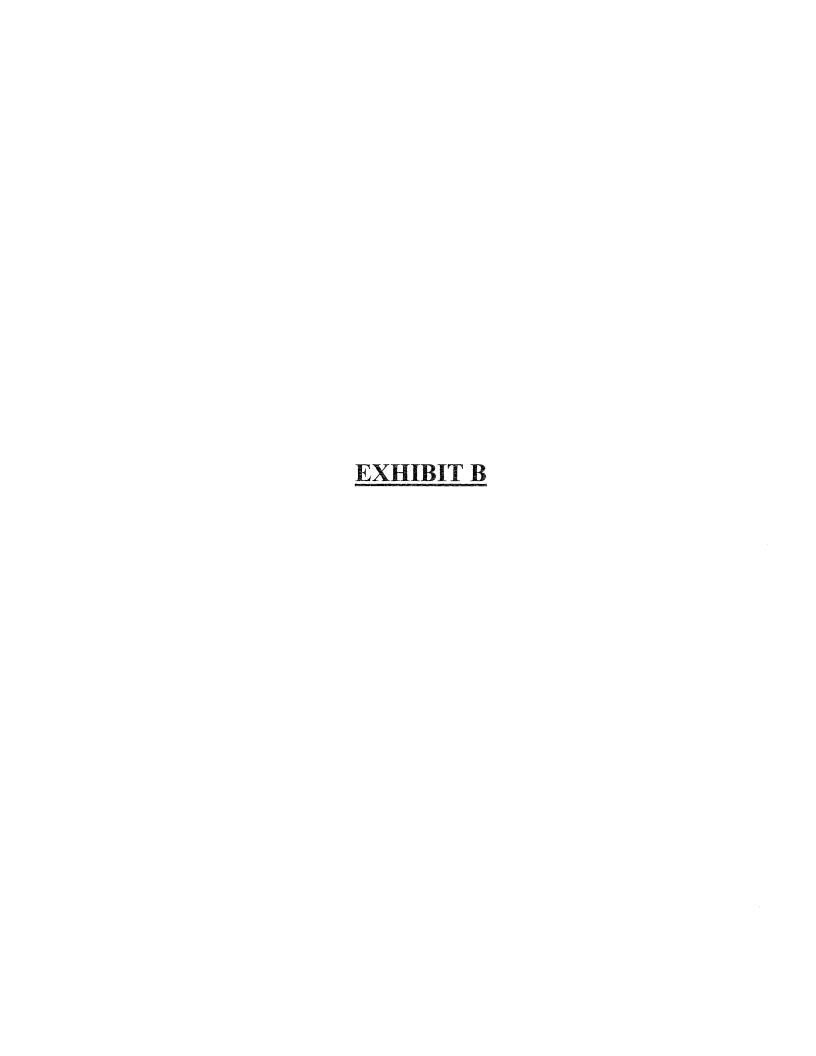

I hereby declare, under penalty of perjury, that, to the best of my knowledge, information, and belief, all of the factual information contained in Exhibit B is accurate and complete.

## **DECLARATION OF JOHN ROUSE**

I am Senior Vice President of ABC Affiliate Relations. In that capacity, I have directed and supervised the preparation of certain exhibits to support the comments submitted by The Walt Disney Company ("Disney/ABC") in response to the Commission's network-related questions on local news and preemption in MB Docket No. 02-277. These exhibits were prepared as follows:

Disney/ABC-affiliated stations that do not clear the Disney/ABC news program "Nightline" in its scheduled time slot. Exhibit D contains that information as of June, 2002, and Exhibit E contains that information as of December 30, 2002. The delay information listed in Exhibits D and E was compiled based on Disney/ABC network clearance reports, which are supported by affidavits submitted by Disney/ABC affiliate stations. The blocking program information listed in Exhibits D and E was compiled based on program schedules submitted by Disney/ABC affiliate stations, as well as Nielsen Media Research ("Nielsen") information. Exhibit D previously was submitted to the Commission as an attachment to Disney/ABC's June 12, 2002 *ex parte* in proceeding DA 01-1264 ("June 12 Ex Parte"). Exhibit E is an updated version of that chart – as of December 30, 2002 to reflect current clearance information. I hereby declare, under penalty of perjury, that, to the best of my knowledge, information, and belief, all of the factual information contained in Exhibit E is accurate and complete.

2. Exhibits F, G, H, and I, which also previously have been submitted to the Commission in proceeding DA 01-1264, also were compiled based on Disney/ABC network clearance reports (supported by affiliate affidavits), affiliate program schedules, and Nielsen information. Exhibit F, entitled "ABC Nonclearances and Delays," was submitted as an attachment to the comments of Disney/ABC filed on July 23, 2001 and specifies the number of Disney/ABC-affiliated stations that do did clear certain Disney/ABC programming in its scheduled time slots as of July 2001. Exhibit F does not reflect changes in clearance information that have occurred since July 2001. Exhibit G, entitled "2000-01/2001 Preemptions," was submitted as an attachment to the June 12 Ex Parte and specifies the number of available and used preemptions for Disney/ABC affiliates. For affiliates that negotiated baskets running during the calendar year, Exhibit G displays preemptions during the 2001 calendar year. For affiliates that negotiated baskets running during the television season, Exhibit G displays preemptions during the television year. Exhibit H, entitled "ABC Preemption Summary -1st Quarter 2002," also was submitted as an attachment to the June 12 Ex Parte and shows the amount of preemptions of Disney/ABC programming by affiliate stations in the first quarter of 2002. Finally, Exhibit I, which is composed of two charts entitled "December 01 and January 02 Prime Preemption Summary" and "December 01 and January 02 Sports Preemption Summary," was submitted as an attachment to the Disney/ABC ex parte filing of February 11, 2002 in proceeding DA 01-1264 and shows the amount of preemptions of Disney/ABC primetime and sports programming by affiliate stations in December 2001 and January 2002. I hereby declare, under penalty of perjury, that, to the best of my knowledge, information, and belief, all of the factual information contained in Exhibits F, G, H, and I is accurate and complete as of the date of previous submission to the Commission.

3. Exhibit I, entitled "Pre-emption Overview – January 01-December 01," was compiled based on Disney/ABC network clearance reports (supported by affiliate affidavits), affiliate program schedules, and Nielsen information, and was not previously submitted to the Commission. This exhibit shows the amount of preemptions of Disney/ABC primetime programming by affiliate stations in 2001. I hereby declare, under penalty of perjury, that, to the best of my knowledge, information, and belief, all of the factual information contained in Exhibit I is accurate and complete.
